# Management's Responsibility for Condensed Interim Consolidated Financial Statements

The accompanying unaudited condensed interim consolidated financial statements of Starrex International Ltd. (the "Company" or "Starrex") are the responsibility of the Board of Directors.

The unaudited condensed interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the audited consolidated financial statements as at December 31, 2018. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the end of the reporting period. In the opinion of management, the unaudited condensed interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the unaudited condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed interim consolidated financial statements and (ii) the unaudited condensed interim consolidated financial respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed interim consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

(Signed): "Dr. Deborah Merritt"

Chief Financial Officer

## 1. Nature of Operations

Starrex International Ltd. ("Starrex" or the "Company") was incorporated on October 2, 1982 pursuant to the Canada Business Corporation Act. The Company's address is 199 Bay Street, Suite 2200, Toronto, Ontario M5L 1G4. The Company's primary business is to acquire, manage and grow companies in the United States active in mortgage, real estate and other financial sectors.

These unaudited condensed interim consolidated financial statements were approved by the Board of Directors on August 29, 2019.

#### 2. Basis of Presentation

The Company has prepared these unaudited condensed interim consolidated financial statements in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, employing all of the same accounting policies and methods of computation as disclosed in the annual audited consolidated financial statements as at December 31, 2018, except as noted below. The notes to these unaudited condensed interim consolidated financial statements are intended to provide a description of events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since December 31, 2018. Certain disclosures that appear in the annual audited consolidated financial statements have not been produced in the unaudited condensed interim consolidated financial statements and, in this regard only, these unaudited condensed interim consolidated financial statements do not conform in all respects to the requirements of International Financial Reporting Standards ("IFRS") for annual audited consolidated financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements as at December 31, 2018.

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. In addition, these unaudited condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These consolidated financial statements include the Company and its wholly-owned subsidiaries, Property Interlink, LLC, MFI Credit Solutions, LLC, and Reliable Valuation Service, LLC. All subsidiaries at June 30, 2019 are 100% owned, directly or indirectly, and controlled by the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are included in the consolidated financial statements from the date control is obtained until the date control ceases. All intercompany balances, transactions, income, expenses, profits and losses, including unrealized gains and losses, have been eliminated upon consolidation.

#### 3. Significant Accounting Policies

#### **Judgments and Estimates**

The preparation of these unaudited condensed interim consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities.

Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. Areas where estimates are significant to these unaudited condensed interim consolidated financial statements are discussed below:

#### a. Goodwill

Goodwill and other intangible assets represent \$2,251,576 on the consolidated statements of financial position at June 30, 2019 (\$2,339,246 – December 31, 2018). These assets arose out of business combinations and are accounted for under the acquisition method of accounting, which involves the allocation of the cost of an acquisition to the underlying net assets acquired based on their respective fair values. These determinations involve significant estimates and assumptions regarding cash flow projections, economic risk and weighted cost of capital. As part of this allocation process, the Company must identify and attribute values and estimated lives to the intangible assets which may have finite lives.

Goodwill and other indefinite life intangible assets are tested for impairment annually or more frequently if there is an indication of impairment. The carrying value of intangible assets with definite lives (software, trade name, customer relationships, and non-compete agreements) and equipment is reviewed each reporting period to determine whether there is any indication of impairment. If the carrying amount of an asset exceeds its recoverable amount, the asset is impaired, and an impairment loss is recognized in the consolidated statement of loss and comprehensive loss.

#### b. Estimated useful lives of long-lived assets

Significant judgment is involved in the determination of useful life for the computation of depreciation of property and equipment and amortization of intangible assets. No assurance can be given that actual useful lives will not differ significantly from current assumptions.

#### c. Income taxes

The Company's income tax expense, deferred tax assets and liabilities for unrecognized tax benefits reflects management's best estimate of current and future taxes to be paid. The Company is subject to income taxes in the United States and Canada. Significant judgments and estimates are required in the determination of the consolidated income tax expense.

#### d. Contingencies

Provisions are accrued for liabilities with uncertain timing or amounts, if, in the opinion of management, it is both likely that a future event will confirm that a liability had been incurred at the date of the consolidated financial statements and the amount can be reasonably estimated. In cases where it is not possible to determine whether such a liability has occurred, or to reasonably estimate the amount of loss until the performance of some future event, no accrual is made until that time.

Notes to Condensed Interim Consolidated Financial Statements For the six-month periods ended June 30, 2019 and 2018 (Unaudited) (stated in United States dollars)

## 3. Significant Accounting Policies - continued

#### **Changes in Accounting Policies**

Effective January 1, 2019, the Company adopted the following revised International Accounting Standards ("IAS") and International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

i) *IFRS 16, Leases ("IFRS 16")*. IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with lessor accounting substantially unchanged from its predecessor, IAS 17, Leases.

The Company adopted IFRS 16 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under IAS 17.

#### Policy applicable from January 1, 2019

At inception of a contract the Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset. This may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- The Company has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
  - o The Company has the right to operate the asset; or
  - The Company designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts in effect on or after January 1, 2019.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate the lease-components and account for the lease and non-lease components as a single lease component.

Notes to Condensed Interim Consolidated Financial Statements For the six-month periods ended June 30, 2019 and 2018 (Unaudited) (stated in United States dollars)

## 3. Significant Accounting Policies - continued

#### As a lessee

The Company recognized a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use assets is periodically reduced by impairment losses, if any, and adjusted for certain measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual guarantee or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets, or is recorded in profit or loss if the carrying amount of the right-of-use assets has been reduced to zero.

The Company has elected not to recognize right-of-use assets that have a lease term of 12 months or less and leases of low-value assets, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

## Policy applicable before January 1, 2019

Before January 1, 2019, the Company determined whether the arrangement was or contained a lease based on the assessment of whether:

- Fulfilment of the arrangement was dependent upon the use of a specific asset or assets; and
- The arrangement had conveyed a right to use the asset. An arrangement conveyed the right to use the asset if one of the following was met:
  - The purchaser had the ability or right to operate the asset while obtaining or controlling more than an insignificant amount of the output;
  - The purchaser had the ability or right to control physical access to the asset while obtaining or controlling more than an insignificant amount of the output; or
  - Facts and circumstances indicated that it was remote that other parties would take more than an insignificant amount of the output, and the price per unit was neither fixed per unit output nor equal to the current market price per unit of output.

#### Standards Issued or Amended Which Will be Adopted in Future Periods

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2019 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

Notes to Condensed Interim Consolidated Financial Statements For the six-month periods ended June 30, 2019 and 2018 (Unaudited) (stated in United States dollars)

## 3. Significant Accounting Policies - continued

IAS 1 – Presentation of Financial Statements ("IAS 1") and IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8") were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier adoption is permitted.

IFRS 3 – Business Combinations ("IFRS 3") was amended in October 2018 to clarify the definition of a business. This amended definition states that a business must include inputs and a process and clarified that the process must be substantive, and the inputs and process must together significantly contribute to operating outputs. In addition, it narrows the definitions of a business by focusing the definition of outputs on goods and services provided to customers and other income from ordinary activities, rather than on providing dividends or other economic benefits directly to investors or lowering costs, and added a test that makes it easier to conclude that a company has acquired a group of assets, rather than a business, if the value of the assets acquired is substantially all concentrated in a single asset or group of similar assets. The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier adoption is permitted.

#### 4. Financial Instruments

#### Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. For financial assets, this is typically the gross carrying amount, net of any amounts offset and any impairment losses. In the normal course of business, the Company is exposed to credit risk from its customers and the related accounts receivable are subject to normal industry credit risk.

The Company applies the IFRS 9 simplified approach to measuring expected losses which uses a lifetime expected loss allowance for all trade receivables and contract assets. The expected loss rates are based on the payment profiles of sales over a period of 36 months before the year end. The historical loss rates, if any, are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. All trade receivables are less than sixty days past due. On that basis, no allowance for doubtful accounts was recorded.

#### Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available working capital to meet its liquidity requirements.

	June 30, 2019	<b>December 31, 2018</b>
Cash and cash equivalents	\$ 163,666	\$ 160,345

Notes to Condensed Interim Consolidated Financial Statements For the six-month periods ended June 30, 2019 and 2018 (Unaudited) (stated in United States dollars)

#### 4. Financial Instruments - continued

Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash maintained at financial institutions is subject to a floating rate of interest. The interest rate risks on cash and on the Company's obligations are not considered significant.

Foreign Currency Risk

The Company is exposed to foreign currency risk on fluctuations related to cash and cash equivalents, accounts receivable, and accounts payable and accrued liabilities that are denominated in a foreign currency. As at June 30, 2019, the Company held immaterial amounts of cash and cash equivalents and accounts receivable in CDN currency and considers foreign currency risk to be low.

		2019		2018
Cash and cash equivalents	\$ CDN	-	\$ CDN	-
Accounts receivable		495		495
Accounts payable and accrued l	iabilities	(198,539)		(291,040)
Total	\$ CDN	(198,044)	\$ CDN	(290,545)

#### 5. Capital Disclosures

The Company's objectives when managing capital are to maintain its ability to continue as a going concern in order to provide return for shareholders and to ensure sufficient resources are available to meet day to day operating requirements.

The Company considers the items included in equity as capital, which totals \$1,558,696 as at June 30, 2019 (December 31, 2018 - \$1,216,623).

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company does not have externally imposed capital requirements.

The Company's capital management objectives, policies and processes have remained unchanged during the period ended June 30, 2019 and the year ended December 31, 2018.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the Canadian Securities Exchange ("CSE"). The impact of any violation of CSE requirements is not known and is ultimately dependent on the discretion of the CSE.
